Dear Sir/Madam,

Re: Newspaper Advertisement of notice related to transfer of dividend and equity shares of the Company to the Investor Education and Protection Fund.

We hereby inform that pursuant to the provisions of Section 124 (6) of the Companies Act, 2013 ('the Act') read with Investor Education and Protection Fund Authority (Accounting, Audit, Transfer and Refund) Rules, 2016 ('said rules'), as amended from time to time, the second Interim Dividend declared for the financial year ended 31st March, 2017, which remained unclaimed for a period of seven years will be credited to the Investor Education and Protection Fund ('IEPF') on or before 26th May, 2024. The corresponding shares on which dividend has not been paid or claimed for seven consecutive years will also be transferred by the Company to the demat account of IEPF Authority.

The same was published in the following newspapers on 29th December, 2023:-

- 1) "The Economic Times", Mumbai Edition, in English Newspaper;
- 2) "Maharashtra Times", Mumbai Edition, in Marathi Newspaper.

Please find enclosed the newspaper advertisement for your record.

Request you to take the same on record.

Thanking you,

Yours truly,

For SHARDA CROP CHEM LIMITED

JETKIN GUDHKA
COMPANY SECRETARY &

We Need to Execute Flawlessly and with Speed, Tata Chief Tells Staff

The next decade will belong to cos who excel in giving customers excellent experiences, he said

Our Bureau

Mumbai: Tata group will have to prioritise execution, customer satisfaction and use technology especially AI in 2024, said Tata Sons chairman N Chandrasekaran in his new year message to employees. "Now that we know what we have to do, and our plans have momentum, we need to think hard about how we can execute flawlessly and with speed."

LEVERAGING AI

This New Year, I urge each company to appoint an AI champion to proactively pursue the benefits of AI

N CHANDRASEKARAN
Chairman, Tata Sons

to adopt, or adapt to, technology. We need to shape it, and make it. This New Year, I urge each company to appoint an AI champion to proactively pursue the benefits of AI—economically, operationally and socially."

The group must also be prepared for more disruption and volatility in 2024 as the complexity of global

governance will reach new heights as the world finds new rules to protect data privacy, curb inflation, reduce carbon emissions and perceptions of AI risk, he said. "Geopolitics is also a potential source of volatility. 2024 is a year of elections, with 40 nations heading to the polls."

The world faced an array of des-

tabilising trends, from escalating geopolitical tensions to the mass adoption of generative AI to the ever-accelerating push toward sustainability. "Some of these trends have been welcome; others much less so. But all of them have made the rules and processes governing our world trickier to navigate—and all of them have added to the pressure to adapt," he said.

Our group performed admirably in 2023 and its transformation—following the principles of Simplification, Synergy, Scale, Sustainability, Supply Chain and AI—has progressed well. "There are too many successes to list here. We also celebrated Tata Technologies' historic IPO, and the announcement of new gigafactories—exciting moves that I am confident will bring resilient growth for decades to come," he said.

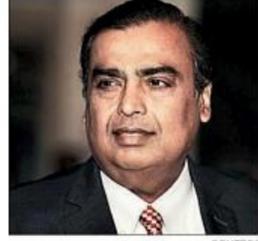

RIL will be Among World's Top 10 Cos, Says Mukesh Ambani

Our Bureau

Mumbai: Oil-to-telecom conglomerate Reliance Industries (RIL) will be among the world's top 10 business conglomerates, chairman Mukesh Ambani said on Thursday. Ambani however, did not give a timeline for the same.

"We are known for disrupting the market through constant innovation and reinvention," Ambani said while addressing employees on Reliance Family Day, the birthday of group founder Dhirubhai Ambani.

He added that his oil-chemicals-telecom conglomerate is aiming to secure its place among global leaders in digital data platforms and artificial intelligence (AI) adoption.

SETTING THE BAR HIGH

We have shown the courage to set the bar high and the ability to jump even higher to create new records

MUKESH AMBANI
Chairman, Reliance Industries

focused on three things," he said. RIL is building mega-scale factories for its new energy businesses. In 2023 the company also forayed into financial services.

"We have shown the courage to set the bar high and the ability to jump even higher to create new records. This is how Reliance has achieved perennial growth," Ambani said.

Reliance is India's largest corporation by market capitalization. Ambani said his three key messages for the new year are to consoli-

date Reliance's place among global leaders in digital data platforms and AI adoption, consolidate its place among global leaders in talent enrichment, and secure its place among global leaders in institutional culture.

"In the era of digital platforms, data has become a new factor of production along with talent and money. We need to be at the forefront of using data, with AI as an enabler for achieving a quantum jump in productivity and efficiency," he said.

Govt Explores Global Partnerships to Boost Local Production of EVs

Govt in talks with stakeholders to formulate a new policy for EVs

Our Bureau

New Delhi: The government is in talks with domestic and foreign stakeholders to formulate a policy to boost local production of electric vehicles (EVs) and is looking to bring in potential investors from countries such as Germany, the UK and South Korea, an official said Thursday.

"Talks are underway and we aim to bring all countries on board," the official said amid reports that India is in talks with EV major Tesla for establishing its manufacturing base in the country.

The official said the policy for EVs will also aim to benefit the Indian auto sector.

"Consultations on new EV policy to boost investment and manufacturing is underway," the official said, adding that the policy should be for everyone.

The Department for Promotion of Industry and Internal Trade has been holding high-level discussions to put in place a scheme for subsidising electric four-wheeler makers linked to investments made by these companies for producing vehicles in the country.

Commerce and industry minister Piyush Goyal had last month said that Tesla Inc, the world's most valued automotive company, plans to double its component imports from India. In September, he had said that Tesla was aiming to source components worth up to \$1.9 billion from India this year, having bought \$1 billion of components last year.

The EV manufacturer, the world's ninth largest company by market capitalisation, is keen to sell its cars in the country but the government has not accepted its demand for lower duties and has instead suggested Tesla manufacture locally.

Tesla wanted a 40% import duty on fully assembled electric cars against the current rate of 60% applicable on those vehicles priced below \$40,000 and 100% on those above that threshold. It has factories in China, Germany, the US, Canada, Mexico and the Netherlands.

Sterlite Power Acquires Neemrana II Transmission Project from PFC

Through SPV, co to set up and manage green energy project for 35 years on a BOOT basis

Our Bureau

Mumbai: Sterlite Power has acquired Neemrana II Kotputli Transmission, a special purpose vehicle (SPV) for a 250-km long transmission corridor for green energy in Rajasthan, from PFC Consulting, a wholly owned subsidiary of Power Finance Corp (PFC).

The project was awarded to Sterlite Power through the tariff-based competitive bidding (TBCB) process in November 2023. The company, through the SPV, will build the project on a BOOT (build, own, operate, transfer) basis for 35 years. This is Sterlite Power's twentieth power transmission project in India under the TBCB process. With this, it now has \$14,000 crore of projects under management.

"Enabling part of 7.7 GW of green

power flow, the Neemrana II Kotputli Transmission project is another vital cog in the machine that will accelerate the nation's transition to a sustainable future," said Pratik Agarwal, managing director of Sterlite Power. "These green energy evacuation projects are aligned with our core purpose to enable access to reliable power while minimising the impact on climate change," he added.

The project will require development of two integral components - a 6,000 MVA, 765/400kV substation at Neemrana; and 400 kV transmission lines spanning 250 kilometres, one connecting Neemrana with existing Kotputli substation, and another LI-

LO (line-in line-out) corridor connecting Neemrana II with Gurgaon and Sohna substations through existing Gurgaon-Sohna line.

Sterlite Power had won its first green energy project in Rajasthan - Fatehgarh III Beawar Transmission in March 2023.

Tata Power Buys Raj Power Project

Mumbai: Tata Power on Thursday said it has acquired a 100% equity stake in a special purpose vehicle that is meant to build, own, operate and transfer electrical power transmission systems between Bikaner and Neemrana in Rajasthan. The acquisition of Bikaner III/Neemrana II Transmission was completed on Wednesday for ₹18.6 crore, Tata Power said.—Our Bureau

IN THE HON'BLE HIGH COURT OF M.P., JABALPUR
